About Authorization to Administer Medicine

To parents

- To avoid accidents, please write all information on this documents and delivery
 medicines by hand. Originally, we would like parents to come to school and take
 medicines for you child, but for only emergency or unavoidable case, school gives
 child to take medicines instead of parents.
- 2. As a general rule, we do not administer medication to the children. Please advise your doctor of his general rule and the times your child will attend school.
- 3. Medicine that your child takes at school must be prescribe by doctor. We can't accept by parent's personal opinions.
- 4. As a general rule, we can' accept taking suppository at school. If your child has febrile convulsion, it's unavoidable case, and your child needs to take suppository at school, please attached specific instruction (but we can't accept if your child take suppository for the first time.)
- 5. The situation that "taking medicine if your child has high fever" or have a cough or an attack starts" because we can make decisions. Please understand we have to call you for making decisions.
- 6. For the chronic disease such as bronchitis, atopic dermatitis, diabetes, or long-term treatment, we need to consult closer with your doctor and parents.
- 7. About medicines that you bring from your home
 - (1) For medicines diabetes by your doctor, you need to attach this document and instruction.
 - (2) Please prepare medicines for one does and delivery to teacher or office staff.
 - (3) Please make sure to write your child's name on medicine bag or case.
- 8. At school office, we have this documents. If your child is bus student, please tell bus teacher. We will give this document in the next day.
